Tests of Soundness
Do you consider the Local Plan is sound in terms of being:

Justified
Effective
Positively prepared
Consistent with National Policy

Reasons

Please give the reason(s) why you consider the Local Plan is not legally compliant or is unsound or fails to comply with the statutory Duty to Cooperate.

I have today been made aware that changes to the existing policy 10 document are being considered. These policies are there to protect the countryside and the wildlife that resides within these areas. With all the development taking place across the country and destruction of significant important areas it is imperative that those who have the powers to maintain the protection for these sites do indeed protect them.

With the above in mind I would strongly object to changes of policy on Mawsley Marsh (a SSSI) and Cransley and Thorpe Reservoir (local wildlife sites) and that they remain protected vigorously and hope you will do everything within your powers to make sure this happens.
