Representation
Please use a separate form for each representation.

Which part of the Publication Plan does your representation relate to?
Chapter 8 - Natural Environment and Heritage

Tests of Soundness
Do you consider the Local Plan is sound in terms of being:

Justified
Effective
Positively prepared
Consistent with National Policy

Reasons

Please give the reason(s) why you consider the Local Plan is not legally compliant or is unsound or fails to comply with the statutory Duty to Cooperate.

I refer to the above policy, which is part of the local plan SSP2.

Until now, both Cransley and Thorpe Malsor reservoirs are important wildlife resources in this area and are well-known beauty spots. In fact, they are linked by the countryside footpath network, which is part of an important wildlife corridor that stretches from Mawsley Marsh to Cransley reservoir to Thorpe Malsor reservoir.

Wetland birds are able to use this interconnected resource for breeding and nesting. This includes both migratory and British birds.

Policy 10 can be classed as an important, much needed tool to protect our countryside and wildlife: it is vital that this remains in place in any changes to the local plan.
