Which Main Modification, change to the Policies Map or section of the Sustainability Appraisal Report Addendum or Habitat Regulations Assessment Addendum does your comment relate to?

We have lived in Braybrooke since 1986 and seen 46 new homes being built in that time, many of these in the street we live in and mostly infill. The area has become very crowded over the years.

Offsetting this mass of building, are the Local Green Spaces which are an important part of Braybrooke and are of significant environmental and ecological importance as well as maintaining a sense of space.

The Schedule of Proposed Main Modifications to the Publication Draft, March 2021, Main Modification MM27 regarding Open Spaces and Policy Map PM9. This section shows the deletion of Local Green Spaces reference numbers: HVI006 and HVI007.

The decision to delete these Green Spaces will damage the character of Braybrooke and this decision should be reviewed, and reversed, taking into consideration the impact on the village as a whole.
