Please use a separate form for each representation.

Which Main Modification, change to the Policies Map or section of the Sustainability Appraisal Report Addendum or Habitat Regulations Assessment Addendum does your comment relate to?

The deletion of historically and visually important green space of GLEBE FIELD LODDINGTON.

Please use a separate form for each representation.

Representation

By deleting the historical importance of this field you would be putting the land at risk of being built upon. This would ruin the look of the village and its historical buildings, and would become an eye sore.

This land is in the centre of the village and is visually important to the residents who live around it, as well as the church, as it provides an area to look out on from the church and the graveyard.

Also, by protecting this land it means that there is a space for the community to come together for fetes and other community events.

Lastly, this land is of historical importance and by deleting that you would be stating that this land is no longer important to the village and its residents, which is not the case.
