Which Main Modification, change to the Policies Map or section of the Sustainability Appraisal Report Addendum or Habitat Regulations Assessment Addendum does your comment relate to?

Main Modification MM27 regarding Open Spaces and Policy Map PM9 Deletion of Local Green Space reference numbers HVI006 and HVI007

We strongly object to these changes and question who will benefit if they are implemented. If there is no benefit why is this decision being mooted? Although the centre of Braybrooke is a conservation area it is vital that it is offered a comprehensive envelope of protection as it plays a special role in ensuring a rural buffer between the ever encroaching conurbations of Harborough and Desborough. The charm of the village lies in it's unusual green centre and wide verges both in the village and on the approaches. There seem to be constant attempts to undermine this green character and we rely on the Planning Authority for protection.

Our green spaces offer the village a tranquility and charm that is invaluable, this needs to be protected for the present inhabitants of the village and for future generations. Please reconsider this decision and offer our village the protection it needs.
