Which Main Modification, change to the Policies Map or section of the Sustainability Appraisal Report Addendum or Habitat Regulations Assessment Addendum does your comment relate to?

Main Modification MM27 regarding Open Spaces and Policy Map PM9 Deletion of Local Green Space reference numbers HVI006 and HVI007

I strongly object to these changes. The charm of Braybrooke lies in its unusual green centre and wide verges both in the village and on the approaches. There seem to be constant attempts to undermine this green character and we rely on the Planning Authority for protection.

Our green spaces offer the village a tranquility and charm that is invaluable. They are demonstrably special and should be protected. The green space is in the heart of the village and gives the village tranquility. It is also used for village events such as the fete/ village picnics etc which bring the community closer. It is local in character and not an extensive tract of land. It provides a valuable space for wildlife.
