The green spaces within Braybrooke village are essential to the fundamental character and charm of the village. All spaces are accessible to the community – HV1006 during village events and HV1007 all year around for exercise and leisure. HV1007 also gives safe pedestrian access to the historic castle site from the village and safe sledging in the winter! The River Jordan flows directly through both areas providing an essential area for wildlife which must be conserved and there have been reports of sightings of Great Crested newts close to the area.
