Which Main Modification, change to the Policies Map or section of the Sustainability Appraisal Report Addendum or Habitat Regulations Assessment Addendum does your comment relate to?

Loddington HVI027, HVI028 and HVI054

Please use a separate form for each representation.

Representation

I refer to the above proposal to delete the land situated in Loddington, from its current status of Historically and Visually Important Green Space.

I strongly object to these changes for reasons, as below:

HVI027 – Land to the South of St Leonard's Church

This land is clearly a Historically and Visually Important Open Green Space and therefore this protection should must in place. The Land is integral to the village environment and contributes positively to the existing form and character of the settlement. This land contributes to the setting of a Listed Building ie Grade II Listed St. Leonard's Church.

HVI028 – Land to the South West of Richardsons Lane

This piece of open space contributes positively to the existing form and structure of the village. The site is central to the character of the settlement and its green and open landscape.

It is land that is vital to the setting of the character and appearance of the Conservation Area.

HVI054 – Land to the South of Loddington Hall

This strip of land contributes to the setting of a Listed Building and the character and appearance of the Conservation Area, as well as the setting of the Grade II Listed St Leonard's Church, Loddington Hall and some very mature and significant trees.
