Which Main Modification, change to the Policies Map or section of the Sustainability Appraisal Report Addendum or Habitat Regulations Assessment Addendum does your comment relate to?

I object to the changes proposed for the local green spaces in Braybrooke village in the SSLP2.

Representation

The changes proposed to the local green spaces in Braybrooke in the SSLP2 modified plan fundamentally undermine the submitted neighbourhood plan. The local green spaces represent the core of the village and have been used for many generations to celebrate the unity of the community through various events, not least the annual village fete. These spaces serve the community in lieu of a village green and not protecting those green spaces would change the feel, look and community coherence of what is a quintessential British village. I would also like to point out that there is a significant amount of wildlife and flora that thrives in those areas as it is acting as a wildlife corridor due to it being predominantly undisturbed by human interference. We would be very saddened and upset should KBC allow for these indisputably unique areas of the village to be permanently altered and damaged.
