I have a big concern over the de designation of the green spaces in our village on multiple levels

They form a major part of the character and beauty of the village and is why many people have settled here

Much of is also conserves the history of the area with many important historic land features and buildings that reflect our uniqueness

Part of the land is also lent to the village for key community events such as the annual fete and gatherings so is critical to the community health and cohesion of our village

Part of the area implicated is part of a major wild life corridor; home to endangered wild flowers and a huge variety of bat species including some that are critically endangered and where anything that tips the balance of their habitat would likely wipe them out

I strongly move that designation should remain intact
