We welcome the update to the HRA Addendum to address our concerns over the loss of functionally linked land for Golden Plover, with the suitability of sites now assessed and foraging ranges of 10km used. We also support the conclusion that any application for the expansion of safeguarded employment areas should consider the impacts on European designated sites. Natural England concurs with the report's conclusion that the Main Modifications will not lead to a likely significant effect on the Upper Nene Valley Gravel Pits SPA.
