Objection to the Proposed Deletion of Historically & Visually Important Green Spaces (HVI027, HVI028, HVI045)

I strongly object to proposed the deletion of Historically & Visually Important Green Spaces in Loddington, for the following reasons:

HVI027 – Land to the South of St Leonards Church

Environmentally Important Open Space in the Local Plan

Site is an important Open Space in the Conservation Area

It is identified through the Rural Masterplanning Work

The site is in/adjacent to the Conservation Area

The site is in proximity to a Listed Building

It is land that contributes positively to the existing form & character of the settlement. The site is central to the character of the settlement and its green & open landscape

It is land that contributes to the setting of a Listed Building and the character of the Conservation Area. The site contributes to the character & appearance of the Conservation Area as well as the setting of the Grade II Listed St Leonards Church

In conclusion, the Land is clearly a Historically & Visually Important Open Green Space and therefore this protection should must in place. The Land is integral to the village environment & contributes positively to the existing form & character of the settlement.

HVI028 – Land to the South West of Richardsons Lane

Environmentally Important Open Space in the Local Plan

Site is important Open Space in the Conservation Area

It is identified through the Rural Masterplanning Work

The site is in/adjacent to the Conservation Area

It is land that contributes positively to the existing form & character of the settlement. The site is central to the character of the settlement and its green & open landscape

It is land that contributes to the setting of the character of the Conservation Area. The site contributes to the character & appearance of the Conservation Area.

In conclusion, the Land is clearly a Historically & Visually Important Open Green Space and therefore this protection must remain in place. The Land is integral to the village environment & contributes positively to the existing form & character of the settlement.

HVI054 – Land to the South of Loddington Hall

Environmentally Important Open Space in the Local Plan

Site is an important Open Space in the Conservation Area

The site is in/adjacent to the Conservation Area

The site is in proximity to a Listed Building

It is land that contributes positively to the existing form & character of the settlement. The site is central to the character of the settlement and its green & open landscape

It is land that contributes to the setting of a Listed Building and the character of the Conservation Area. The site contributes to the character & appearance of the Conservation Area as well as the setting of the Grade II Listed St Leonards Church & Loddington Hall

In conclusion, the Land is clearly a Historically & Visually Important Open Green Space and therefore this protection must remain in place. The Land is integral to the village environment & contributes positively to the existing form & character of the settlement.
