P4's - Down 1.6% on last month, 3.91% up on August 2015

We have struggled this month with all areas, annual leave/flexitime and sick leave has accounted for 103 days lost production. This has had a bad knock on effect with the figures again this month.

We have had backlog with the workshop due to new windows and fascia's at the main building, also annual leave has again affected the service.

Next month the annual leave is less so we will have less time lost in productivity.
